

# Microsoft NTFS for Linux by Paragon Software

NTFS-STORAGE ACCESS FROM LINUX DEVICES

## Microsoft NTFS for Linux by Paragon Software

is a unique combination of drivers for the NTFS and HFS+ file systems accessible from a Linux environment.

The driver is a part of File System Link technology that solves incompatibility issues between file systems and operating systems. Support for all popular file systems can be embedded into modern digital devices so that consumers enjoy issue-free platform interoperability.

## Who benefits?

Home users, forensic experts, IT managers, original equipment manufacturers.

## What's inside?

- Transparent read/write access to NTFS/HFS+ volumes
- Automatic NTFS/HFS+ volumes mounting on Linux platform
- Extended SMP support
- Share volumes mounted by the driver via SAMBA
- Low CPU load during data transfers
- No file or volume size limitations
- Supports of all alphabets including non-Latin characters

## About Paragon File System Link

- Set of file system drivers and tools for Windows, Mac, Linux, and mobile OS
- Includes drivers, libraries, SDKs, and professional services for software vendors and OEMs
- Supports file systems for major hardware and virtual platforms, and embedded systems
- Offers steady throughput and balanced goodput with effective flow control, reduced overheads, and congestion avoidance
- Ensures thrifty use of processor, memory, and disk resources
- Protects data integrity and prevents accidental data loss and corruption

## Licensing

Users can get a free license with limited functionality and make a one-off purchase of a full license. The retail price is \$39.95. The license covers up to one end-point.

## About Paragon

For 25 years, [Paragon Software Group](https://www.paragon-software.com) has been delivering a wide range of software tools, solutions, and technologies. Our offerings range from low-level storage management and file system drivers to safekeeping and recovery of operational, business, and user data across heterogeneous platforms and environments.
